## WW1: Southend at War!

Discover the story of Southend town throughout WW1, complementing the on-going centenary commemorations...

Southend at War is heavily supported by images of the town a century ago, original objects to handle, and replica objects to wear. The three key topics covered are: hospitals in Southend and the treatment of wounded soldiers & sailors; Zeppelins, air raids and aliens in Southend; and Southend people - women at war, joining up, munitions works, and civil defence.

Talks also focus on the past and present (compare and contrast), as well as looking at changes and continuity in society and Southend.
